FOOD MANUFACTURING

Beer and beverage, candy baking, dairy products, meat cooked food and other production environment

Safe and clean production environment is the premise of food safety production. Environmental safety and health problems in food production and processing areas are the key points in food safety. Non-toxic, environmentally friendly and easy-to-clean floors and walls can effectively prevent bacterial growth and provide effective cleaning protection for food production. UQESH Waterborne Polyurethane Floor/Wall Coating provides optimal solutions to meet the requirements from global Food manufactures based on our multiple series of product line.

- Alcohol, liquid beverages (beer, cola, juice)
- Dairy products (liquid milk, milk powder, ice cream)
- Meat (cooked, marinated, slaughtered)
- Central kitchen (clean, cooked, boiled, baked)
- Baking (bread, cake, biscuits)
- Condiments (soy sauce, vinegar, fermentation)
- Leisure food (candy, preserves)

HEAVY INDUSTRY

Automotive, aerospace, electronics, medical equipment, energy, chemical industry, etc.

Good industrial environment leads to great products. The industrial plant floor should meet the requirements of long-term durability. The best insurance for the stable production is choosing a suitable floor coating material which is no need for repeated maintenance. UQESH is committed to the research, development, promotion and application of Waterborne Polyurethane Floor/Wall Coating materials. It responds to different requirements in the industrial field with a rich product series, and provides the best floor solutions for global industrial production.

ELECTRONICS INDUSTRY

iPhone supply chain BIEL Crystal

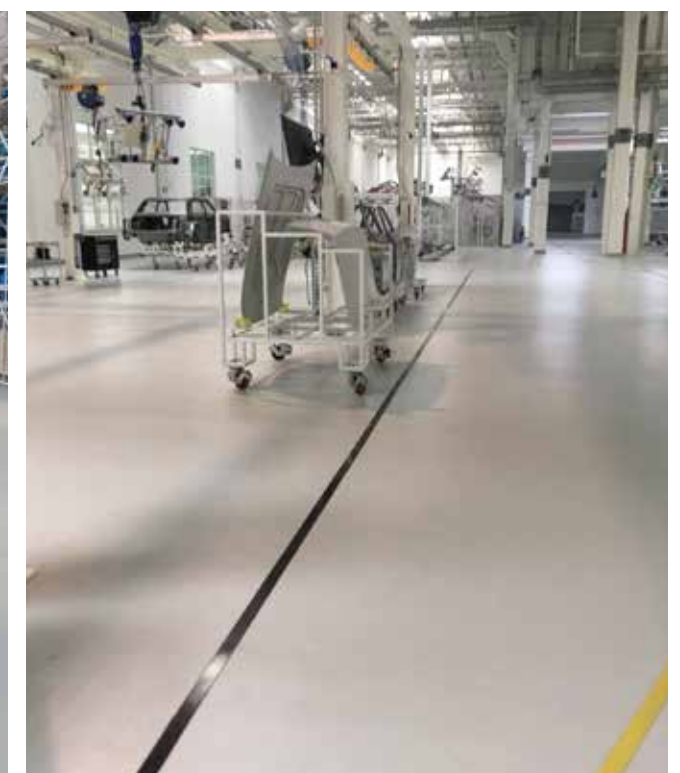

Founded in 1986, BIEL Crystal Co., Ltd., is the world's largest glass panel manufacturer, with a plant area of 850,000 square meters and a global market share of more than 60%. The total annual output value of the two production bases in Shenzhen and Huizhou is as high as RMB 30 billion.

AUTOMOTIVE INDUSTRY

China FAW Group Co., Ltd., formerly China First Automobile Works, can trace its roots back to Jul 15, 1953, was inscribed by Chairman Mao Zedong. Hongqi is a high-end automobile brand directly operated by FAW.

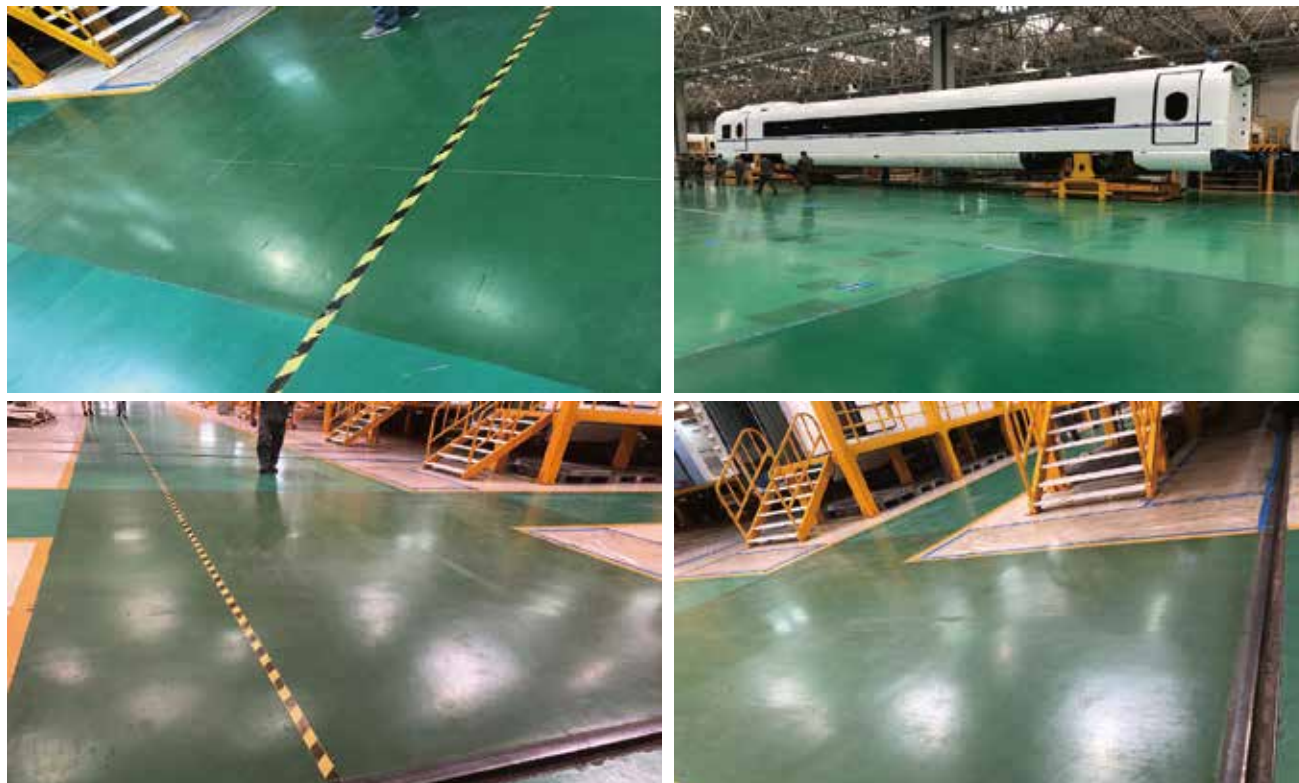

PULP INDUSTRY

Asia Pulp & Paper Co., Ltd., abbreviated as APP, was incorporated in Singapore in October 1994 and dominates the pulp and paper industry of Sinar Mas Group. After 20 years of unremitting efforts, APP has now developed into one of the world's top ten paper industry, with total assets of more than USD 10 billion, annual production and processing capacity of about 10 million tons, with more than 1 million hectares of fast-growing forest.

The test results of UQESH® in the high-speed train maintenance workshop of CRRC Corporation Limited (CRRC) for one year.

AUTOMOTIVE INDUSTRY

CRRC

Qingdao City, Shandong Province

CRRC Corporation Limited is a central enterprise managed by the State-owned Assets Supervision and Administration Commission of the State Council. Until 2016, CRRC has exported its products to 101 countries and regions around the world, covering 11 market regions on six continents.

AUTOMOTIVE INDUSTRY

Caterpillar repair workshop

Caterpillar (CAT), one of the world's largest manufacturers of construction machinery and mining equipment, gas engines and industrial gas turbines, and one of the world's largest diesel engine manufacturers.

NGK is the abbreviation of Niterra Co., Ltd., headquartered in Nagoya, Japan, founded in 1946. The company set up representative offices in Guangzhou and Suzhou in 2001, and Shanghai in 2002, mainly focusing on the sales of spark plugs, automotive exhaust filters, oxygen sensors and other products.

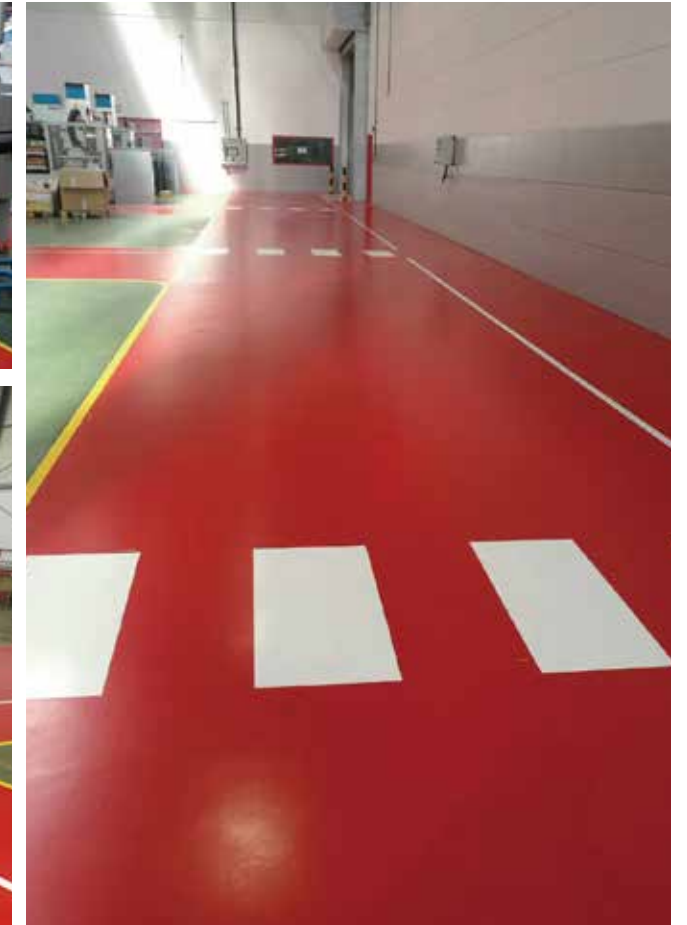

NGK Suzhou factory AGV workshop

AUTOMOTIVE INDUSTRY

Brembo is an Italian manufacturer engaged in engineering design, development and manufacturing of high-performance brake systems and components.

Anhui Zhongding Holding (Group) Co., Ltd., is a large-scale modern enterprise dominated by mechanical basic parts and automobile parts. It was selected as the "Top 50 Global Non-tire Rubber Products" large-scale modern enterprise in year 2011, 2012 and 2013.

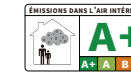

AEROSPAC INDUSTRY

MTU Aero Engines

MTU (Zhuhai) has obtained three major maintenance licenses from the Civil Aviation Administration of China (CAAC), the European Joint Aviation Authority (JAA) and the United States Federal Aviation Administration (FAA). It is one of the most competitive aviation engine maintenance bases in China and the Asia-Pacific region. MTU (Zhuhai) is the first base in Asia with the ability to overhaul four main engine series V2500 and CFM56-3/-5/-7.

PRECISION MANUFACTURING INDUSTRY

The application of UQESH® clean floor in AGV intelligent factory

Antistatic
property

The conductive carbon fiber with high specific surface and high conductivity from Japan is used with a special dispersion process to ensure the stability of the resistance and reduce the attenuation during wear.

CHEMICAL INDUSTRY

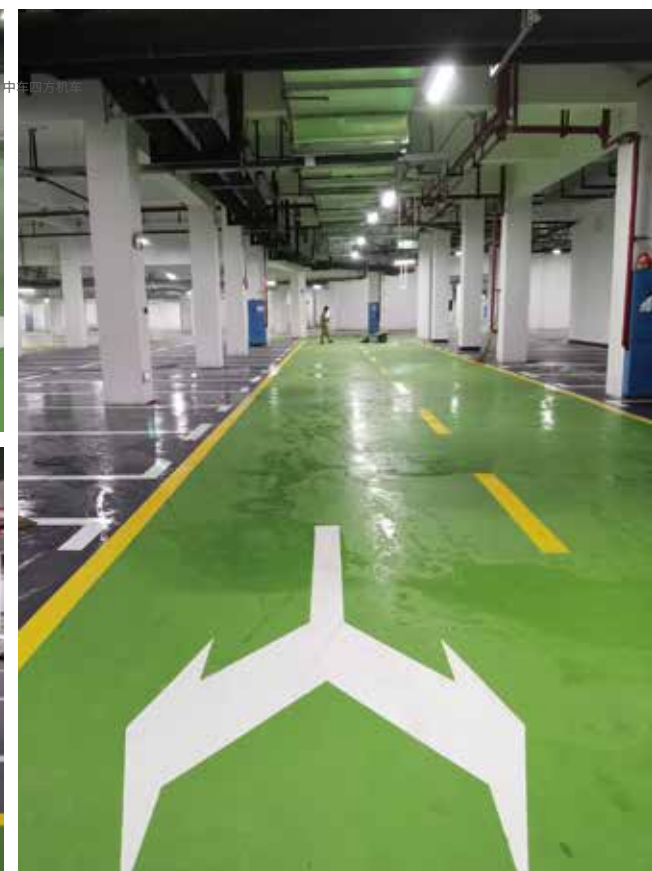

GARAGE SYSTEM

Super tough universal waterborne polyurethane product series

Waterborne environmental friendly | Low-cost | High performance

- ◆ Huilongshan Valley Real Estate underground garage
- ◆ Sandlake Fund town commercial underground garage, Suzhou
- ◆ Underground garage of Xiangya Hospital, Changsha, Hunan
- ◆ Baolong Royal Lake residence project underground garage, Xiamen
- ◆ Shenzhen Grand Theatre underground garage
